PROFESSIONAL SUMMARY

I am a student in her graduating year of psychology, with a great interest in writing literature. As I was investigating ways to launch a career in writing and manufacturing videos as a digital creator, I found my path greatly coinciding with that of programming and the interest grew monumentally.

I ventured on a career path that focused largely on mixing my pursuing passion for learning software development on a full-time basis and creative interests. I enthusiastically wish to collaborate with industry teams.

SKILLS

LANGUAGES: Javascript, HTML, SQL, **DATABASES:** PostgreSQL
CSS, Ruby

FRAMEWORKS/LIBRARIES: NodeJS,
ReactJS, Express, Rails, JQuery, Ajax
